

200W Full Spectrum LED

460 $\mu\text{mol/s}$
Total Output

More flower, less power

LED lighting technology has evolved leaps and bounds over the past few decades. As the technology has progressed, so have grower's expectations on performance. With a full-bodied PAR spectrum output and a high total output, the DAYLIGHT 200W LED Grow Light ensures growing with LEDs will impress even the most staunch HPS supporter.

DAYLIGHT LED 200W | Key features

- ✓ Full-spectrum output 200W LED luminaire, with Far Red components.
- ✓ Light distribution optimised for 0.8m x 0.8m area.
- ✓ Dimmable - 20% - 40% - 60% - 80% - 100% power
- ✓ Optimised spectral output to provide the best light for plant growth, including Far Red.
- ✓ LUMLED LEDs
- ✓ Passive heat dissipation design (No need for internal cooling fans).
- ✓ Energy-saving, a high photoelectric conversion efficiency means that you get more light per watt and less waste heat.
